**Applicant's Name** ... Community Association for Rural Transportation (CART)

---

---

**Priority Need**          Public Services

---

---

**Project Title**          Cart: Getting People Where They Need to Go

---

**Project Description**

CART will provide a range of essential transportation services for seniors, persons with disabilities, and for persons with incomes below the federal poverty level to complement the services offered by the Harrisonburg Transit for City residents. CART provides door-to-door service for persons too frail or disabled to get to the curb to use City services, trips at hours the City transit is not operating, trips out into the County, and out-of-area trips that enable City residents to access health care and other essential services on a regional basis. CART also coordinates the broad based "Way to Go" community coalition that places donated, used automobiles with persons who are struggling to become more self-sufficient, when a lack of affordable transportation is a barrier to their employment. CART requested \$29,000 in CDBG funds.

---

---

**Location**          CART services will be available City-wide
